

THE SECOND INTERNATIONAL SOFTWARE QUALITY WEEK EUROPE

Theme: EURO & Y2K: The Industrial Impact

The Year-2000 question emphasizes how important it is to accomplish system changes and testing under pressure, amplified by the EURO conversion deadline, within real-world economic constraints.

We are soliciting 45-, 90- minute and tutorial presentations or participation in a panel discussion on any area of testing and automation, including but not restricted to:

Automated Inspection Methods
CASE / CAST Technology
Client-Server Computing
Cost / Schedule Estimation
Defect Tracking / Monitoring
EURO Conversion Testing
GUI Test Technology
Integrated Environments
ISO-9000
Load Generation and Analysis
Multi-Threaded Systems
New and Novel Test Methods
Object Oriented Testing
Process Assessment / Improvement
Productivity and Quality Issues
Real-Time Software
Real-World Experience
Reliability Studies
Risk Management
Test Automation
Test Data Generation
Test Documentation Standards
Test Management Automation
Test Planning Methods
Test Policies and Standards
Web Testing / Website Quality
Y2K Solutions

QWE98

9 - 13 November 1998
Brussels
Belgium

QWE '98 Presents:

The premier conference of the Software Testing and QA/QC community. QWE '98 program consists of five days of mini-tutorials, panels, technical papers and workshops that focus on:

- EURO Conversion and Y2K Solutions.
- Real-World Experience from Leading Industry and Government Practitioners.
- Quality Assurance and Test involvement in the development process.
- Exchange of information among technologists.
- State-of-the-art information on software quality methods.
- Vendor Technical Presentations.
- Two-Day Vendor Show.
- Over 50 Presentations.

IMPORTANT DATES:

Abstracts and Proposal Due:
17 July 1998

Notification of Participation:
24 August 1998

Camera Ready Materials Due:
18 September 1998

Final Paper Length:
10 - 20 pages, including
Slides / View Graphs

SOFTWARE RESEARCH, INC.

Sponsor of Quality Week
since 1988

SUBMISSION INFORMATION:

Abstracts should be 1 - 2 pages long, with enough detail to give the international Advisory Board an understanding of the final paper, including a rough outline of its contents. Indicate if your target audience is:

- Application oriented
- Managerial
- Technical

Indicate if the basis of your paper is:

- Work experience
- Opinions / perspectives
- Academic research

In addition, please include:

- The paper title, complete mailing and e-mail address(es), telephone & FAX number(s) of each author.
- Three keywords / phrases describing the paper.
- A brief biographical sketch of each author.
- One photo.

Simply fill out the Candidate Speaker Data Sheet available at:

<http://www.soft.com/QualWeek/QWE98/>

Or send abstracts to:
